

Energy Policy

This Energy Policy supports the operation of Dawn Pork & Bacon's Energy Management System, which is certified to ISO 50001:2018

Dawn Pork and Bacon operate a pig slaughter, cutting and curing facility producing a range of fresh and frozen Pork and Bacon products.

The company acknowledges that the consumption of energy leads directly to carbon emissions.

This energy policy statement was issued with the purpose to raise awareness for this issue, and to be a world-class performer on energy efficiency and to reduce the environmental impact of energy use.

Dawn Pork and Bacon are committed to:

- Adhering to the legal and any other requirements related to energy efficiency, energy use and energy consumption.
- Setting and reviewing objectives and energy targets which improve Dawn Pork and Bacon's energy performance
- Ensure the necessary resources and the availability of information to achieve objectives and energy targets.
- Continual improvement of site energy performance and Energy Management System.
- Supporting the procurement of energy efficient products and services that impact energy performance.
- Supporting design and business activities that consider energy performance improvement.
- This energy policy shall be communicated to our employees in order to keep awareness and commitment at a high level.

These commitments are delivered through a fully functioning Energy Management System (EnMS), which incorporates an Action Plan, Objectives and Targets. Dawn Pork & Bacon's EnMS is certified to ISO 50001:2018 and aligned with the Bord Bia Origin Green Programme, demonstrating our commitment to continual improvement in energy performance, energy efficiency and the reduction of environmental impact.

All energy performance commitments and requirements are fully integrated into the certified Energy Management System, allowing continual environmental sustainability improvement in a controlled and organised manner.

Dawn Pork and Bacon makes the policy available to the public and all interested parties.
